KEY LEARNING OBJECTIVES

- Understand the coaching process
- Discover coaching as a tool for management, mentoring and leadership
- Discern individual's coaching style through the Emergenetics Profile
- Acquire coaching skills to enhance individual and team performance

DURATION 2 days
CLASS SIZE Min. 4 pax Max. 20 pax
AVAILABLE IN Singapore

PRE-REQUISITE

Participants must have received their Emergenetics Profile through a prior workshop, or a one-to-one consultation with a Certified Emergenetics Associate.

OVERVIEW

The Manager Coach Workshop is a 2-day hands-on workshop that allows participants to learn the fundamentals of coaching practice in the context of leading a team.

Using the GROW or COACH Model, the workshop allows participants to deepen their coaching skills using the Emergenetics framework. A half-day follow up workshop will be scheduled within three weeks of the programme for participants to review their action plan and gain feedback on their coaching practice.

PROGRAMME OUTLINE

- Definition of Coaching – What is Coaching?
- The Coach Mindset – Creating a Coaching Environment
- Managing vs Coaching – The Difference
- The Practise of Coaching
- Coaching using the GROW or COACH Model
- Coaching & Emergenetics
 - Recognising one's blind spots in coaching
 - Coaching a different profile from you
- Gaining feedback in coaching
- Implementation of Coaching Culture - Coaching action planning
- Half-day Follow Up – Review of implementation of action plan and feedback session
